SUMMARY:

Junior Web Developer Recent BCA graduate with hands-on internship experience. I don't just write code; I help fix bugs and make websites run faster. Skilled in **HTML, CSS, and Databases**, I'm looking to bring my energy and full-stack skills to a creative team where I can build helpful tools for users.

TECHNICAL SKILLS:

- **Frontend:** HTML5, CSS, JavaScript, React
- **Backend:** PHP, SQL, MySQL
- **Tools:** GitHub, VS Code, etc.,
- **Analytics:** Python (Pandas, NumPy, Matplotlib), Excel
- **Soft Skills:** Problem-solving, Communication, Collaboration, Adaptability, Ownership, etc.

EXPERIENCE:

Web Development Intern | Shiksha wave | Jan 2025 – Mar 2025

- Developed and tested web applications using HTML5, CSS, JavaScript, and React.
- Debugged and optimized code to improve functionality and user experience.
- Updated website content and design for better usability and responsiveness.

PROJECTS:

College Cabinet Voting System ([GITHUB PROJECT LINK](#)) | Nov 2024 – Mar 2025

- Designed a secure, transparent voting platform that increased voter engagement by 15%.
- Reduced manual vote counting time and minimized human interference.
- Built with HTML, CSS, JavaScript, PHP, and MySQL.

CERTIFICATIONS:

- Build Your Own Generative AI Model – **NXT Wave (Feb 2025)**
- Introduction to Data Science – **SimpliLearn (Mar 2025)**
