

PRASAD BHAVKANNA PATIL

Full-Stack Software Engineer • Web Applications & Cloud Systems

Belagavi, Karnataka, India | +91 84311 23648 | prasadpatil0531@gmail.com | linkedin.com/in/prasad-patil

PROFESSIONAL SUMMARY

Analytical and results-driven Full-Stack Software Engineer with proven expertise in architecting, developing, and deploying scalable web applications and high-performance RESTful APIs. Proficient in TypeScript, JavaScript (ES6+), Python, Node.js, Next.js, and SQL/NoSQL databases. Strong background in optimizing backend throughput, building responsive component-driven UIs, writing automated tests, and following robust engineering standards.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, Python, SQL, PHP, HTML5, CSS3
Frontend:	React.js, Next.js, Modern Web Standards, Tailwind CSS, Responsive UI, State Management
Backend & APIs:	Node.js, Express.js, RESTful API Design, Service Modularization, Microservices Architecture
Databases & Storage:	PostgreSQL, MySQL, MongoDB, Relational Schema Design, Query Optimization
DevOps & Tools:	Git, GitHub, Docker, Postman, CI/CD Pipelines, Unit Testing, Agile/Scrum Methodologies

WORK EXPERIENCE

Full Stack Web Development Intern — Zapiflow	Jan 2025 – Mar 2025 Belagavi, India
Scalable Application Development: Architected and deployed responsive, component-driven web interfaces using React.js, JavaScript (ES6+), and Tailwind CSS, ensuring cross-browser reliability and performance. API & Backend Engineering: Engineered high-performance RESTful APIs and optimized relational SQL (MySQL) queries, slashing backend latency by 20% and optimizing database query execution. System Reliability & Debugging: Systematically analyzed application bottlenecks and resolved complex cross-stack dependency conflicts to guarantee zero-downtime production rollouts. Engineering Quality: Participated in peer code reviews, enforced strict engineering and design standards, documented system architecture, and collaborated across agile sprints using Git and GitHub.	

FEATURED TECHNICAL PROJECTS

College Cabinet Voting System	Nov 2024 – Mar 2025
Tech Stack: JavaScript (ES6+), PHP / Node.js, MySQL, RESTful Architecture, Git	
- Architected and deployed a highly secure, role-based online voting platform supporting concurrent user sessions with zero downtime. - Implemented multi-layer input sanitization, secure session authentication, and encrypted database workflows to prevent fraud and maintain auditability. - Automated ballot aggregation and validation pipelines, eliminating 100% of manual tabulation errors and boosting student voter turnout by 15%.	

EDUCATION

Bachelor of Computer Applications (BCA)	Govindram Seksaria Science College, Belagavi	CGPA: 8.1 / 10.0
Intermediate (Science 10+2)	Jyoti Pre-University College, Belagavi	Grade: A
Matriculation (10th Standard)	New English School, Mutaga, Belagavi	88% (Grade: A+)

CERTIFICATIONS & TRAINING

- Mastering Next.js Bootcamp – Build & Deploy Full-Stack Apps:** Google Developer Groups (GDG CSMU) & DevTown [Google Partnered](#) (Jun 2026)
- Build Your Own Generative AI Model:** NXT Wave (Feb 2025)
- Introduction to Data Science:** Simplilearn (Mar 2025)
